

LED OUTDOOR WALL SCONCE

- ▶ DESIGN & OPTIONS LED OUTDOOR WALL SCONCE has a modern, multipurpose design and a stylish look with efficient lighting. The durable steel base is highly resistant to rust, and the PMMA lens is UV resistant. It is designed to operate on 120-277V circuits. The fixture includes a CCT option, letting you choose either 3,000K, 4,000K or 5,000K with a simple switch. The 160° beam angle grants you smooth and even lighting. It comes in three different sizes: 12°, 18°, and 24′ with a BRONZE finish.
- NSTALLATION Installation is quick and easy: just attach the mounting plate to the outlet box with screws, connect the wires, and fasten the fixture to the mounting plate. Screws, wire nuts, and all necessary installation accessories are provided. Refer to install instructions for detailed steps.
- ▶ APPLICATION This LED OUTDOOR WALL SCONCE is an ideal maintenance free solution for residential and commercial installations. It creates a cozy ambience that is great for both indoor and outdoor projects such as decks, front doors, porches, patios, gardens, corridors, balconies, villas, and walkways. The fixture is Wet Locations rated and suitable for severe weather conditions.
- ▶ ENERGY SAVINGS & EFFICIENCY With a lifespan of 50,000 hours, these fixtures are made to last decades under normal operation! This fixture can cut your electric bill by up to 80% instantly and will save you a significant amount of money in its lifetime.
- ▶ CERTIFICATION & WARRANTY Buy with confidence: ASD provides a 5-year limited warranty along with ETL certification to guarantee top quality products and safety!

Energy Star classification allow participation in rebates; please check the rebate programs available in your state.

Box	1

INSTALLATION GUIDE

IMPORTANT SAFFTY INFORMATION:

Please read all the instructions below before installation.

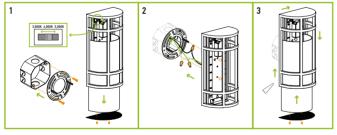

- Make sure that the supply voltage corresponds to the rated product voltage.
- The product must be installed by a qualified electrician in accordance with the National Electrical Code and corresponding local codes.
- If the product is damaged, do not use it.

ELECTRICAL SCHEMATIC DIAGRAM:

INSTALLATION STEPS 12" AND 18":

- 1. Screw the two mounting screws onto the mounting plate. Attach the mounting plate to the outlet box using screws. Make sure the threads of the mounting screws are facing outside when the mounting plate is attached to the outlet box. Remove the bottom cover and pull out the lens. Choose preferred color temperature by adjusting the switch position
- Connect the wires: Black to Black, White to White, Ground to Ground. Secure the connection with wire nuts. Place the fixture on the wall by aligning the protruding mounting screws through the holes on the fixture. Tighten each mounting screw with a decorative cap nut
- 3. Put the lens back and attach the bottom cover with two short screws. For outdoor locations please use silicone (not included)

▲ WARNING

RISK OF PERSONAL INJURY – READ and follow all WARNINGS and installation instructions. Keep or give to the owner for future reference.

Risk of cuts: Wear gloves to prevent cuts or abrasions when removing from carton, handling, installing, and maintaining this product.

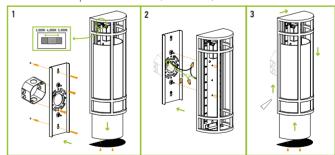

Risk of electric shock: This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Risk of Fire: Minimum 194°F supply conductors. Consult a qualified electrician to ensure correct branch circuit conductor.

ASD® assumes no responsibility for claims arising out of improper or careless Installation or handling of this product.

INSTALLATION STEPS 24":

- 1. Remove the bottom cover and pull out the lens. Choose preferred color temperature by adjusting the switch position. Attach the mounting plate to the outlet box and mark the location of the holes for the wall anchors in the narrow ends of the keyholes. Remove the mounting plate and drill two appropriate sized holes for anchors, insert anchors into the holes, twist the two self-tapping screws into the anchors. Attach the mounting plate to the outlet box using two screws and tighten self-tapping screws.
- 2. Connect the wires: Black to Black, White to White, Ground to Ground. Secure the connection with wire nuts. Place the fixture on the wall by aligning the protruding mounting screws through the holes on the fixture. Tighten each mounting screw with a decorative cap nut.
- 3. Put the lens back and attach the bottom cover with two short screws. For outdoor locations please use silicone (not included).
