

LED UNDER CABINET LINEAR

**DESIGN & OPTIONS** - LED UNDER CABINET LINEAR LIGHTS with a CRI 90+ is perfect for a hidden backlight. They have smooth dimming capabilities ranging from 100% to 10% with modern LED dimmers, and the Hi/Lo switch provides 100% and 50% brightness levels. This fixture is also color adjustable letting you go from 2700K, to 3000K, to 4000K with a simple switch. It comes in 9", 12", 18", 24", 32", 40" and 48" sizes with a WHITE finish.

▶ INSTALLATION - These fixtures can be installed as a plug-in or hardwired and also have the option of being linked together or installed separately. For your convenience we provide a 6 ft power cord, 6" linking cord, end-to-end connector, Romex connector, and screws. Refer to install instructions for detailed steps.

APPLICATION - These LED UNDER CABINET LINEAR LIGHTS are an ideal maintenance-free solution for residential and commercial installations. They create a cozy ambience that is great for your family room, bedroom, cabinet or any other common area in your living space. They are also suitable for Damp locations making them perfect for kitchens as well. You could also use them as a complimentary light to an already existing main light.

ENERGY SAVINGS & EFFICIENCY - Replacing an incandescent fixture with the LED UNDER CABINET LINEAR LIGHT can save you up to 8 times as much on your energy costs. With a lifespan of 50,000 hours, these fixtures are made to last decades under normal operation! This fixture will save you a significant amount of money in its lifetime.

• CERTIFICATION & WARRANTY - Buy with confidence: ASD provides a 5-year warranty along with ETL and ENERGY STAR certifications to guarantee top quality products and safety!

Top US certifications allow participation in rebates; please check the rebate programs available in your state.

LED UNDER CABINET LINEAR

## INSTALLATION GUIDE

#### IMPORTANT SAFETY INFORMATION:

Please read all the instructions below before installation.

- Make sure that the supply voltage corresponds to the rated product voltage. The product must be installed by a qualified electrician in accordance with the National Electrical Code and corresponding local codes.

If the product is damaged, do not use it. •

## ELECTRICAL SCHEMATIC DIAGRAM:

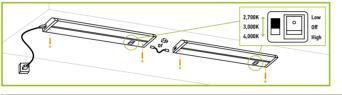

ctor		L (live/hot) connect black	FIXTURE
conne. 20 V	L &	N (neutral) connect white	
ower o 12	G 📎 —	Ground connect green	G
Ъ			

#### PLUG-IN INSTALLATION:

1. Attach the fixture to the surface using 2 screws.

2. Multiple fixtures can be linked together with the end to end connector or linking cord.

3. Choose needed color temperature and lighting mode using the switch

## A WARNING

#### RISK OF PERSONAL INJURY - READ and follow all WARNINGS and installation instructions.

Keep or give to the owner for future reference.

Risk of cuts: Wear gloves to prevent cuts or abrasions when removing from carton, handling, installing, and maintaining this product. Risk of electric shock: This product must be installed in accordance with the

applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Risk of Fire: Minimum 194°F supply conductors. Consult a qualified electrician to ensure correct branch circuit conductor.

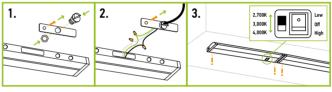

ASD® assumes no responsibility for claims arising out of improper or careless Installation or handling of this product.

### HARDWIRE INSTALLATION:

1. Remove the knock-out. Dismount adapter plate by loosening screw. Insert the romex connector into the open hole and secure it with the wire nut.

2. Connect the wires: Black to Black, White to White, Green to Green using guick connectors. Tuck all the wires into the fixture and reattach the adapter plate by tightening the screw.

3. Attach the fixture to the surface using 2 screws. Multiple fixtures can be linked together with the end to end connector or linking cord. Choose needed color temperature and lighting mode using the switch
