

## **LED VANITY LIGHT**

## LVF25M series

- **DESIGN** LED VANITY LIGHT has a sleek, modern design that allows you to have a stylish look with efficient lighting. With 360° adjustable light heads, you can move the light exactly where you need it. Durable housing resistant to rust and impact provides many years of service. The acrylic lens grants you even light distribution. It is designed to operate on 120V circuits.
- COLOR SELECTABLE You can choose either a 2.700K soft white. 3,000K warm white, 4,000K cool white, 5,000K daylight or 6,000K daylight white color temperature.
- **DIMMING** Smooth triac dimming capabilities ranging from 10% to 100% with modern LED dimmers allow you to control the look and feel of your space.
- ▶ APPLICATION This fixture creates a bright light that is perfect for bathroom spaces or any other common areas. It can be installed vertically or horizontally with sconces up or down. It is also Damp Locations rated.
- ADVANTAGES With a lifespan of 50,000 hours, these fixtures are made to last decades under normal operation! ASD provides a 5-year limited warranty along with ETL certification to guarantee top quality products and safety!

LVF25M series

## INSTALLATION GUIDE

### IMPORTANT SAFETY INFORMATION:

Please read all the instructions below before installation.

- Make sure that the supply voltage corresponds to the rated product voltage.
- The product must be installed by a qualified electrician in accordance with the National Electrical Code and corresponding local codes.
- If the product is damaged, do not use it.

WARNING
RISK OF PERSONAL INJURY – READ and follow all WARNINGS and

installation instructions. Keep or give to the owner for future reference.

Risk of cuts: Wear gloves to prevent cuts or abrasions when removing from

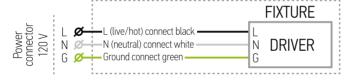

carton, handling, installing, and maintaining this product.

Risk of electric shock: This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Risk of Fire: Minimum 194°F supply conductors. Consult a qualified electrician to ensure correct branch circuit conductor

ASD® assumes no responsibility for claims arising out of improper or careless Installation or handling of this product.

#### **ELECTRICAL SCHEMATIC DIAGRAM:**

### **INSTALLATION STEPS:**

1. The LVF24 can be installed either right side up or upside down.

Unscrew the four fixture screws from both sides of the fixture and remove the mounting plate. Choose preferred color temperature on the back side of the fixture by adjusting switch position.

- 2. Place the mounting plate against the wall covering the outlet box, mark placement of the narrow end of mounting keyhole slots. Remove the mounting plate and drill two appropriate sized holes for anchors, insert anchors into the holes, twist two self-tapping screws into the anchors. Attach the mounting plate to the wall with two mounting screws and tighten self-tapping screws.
- 3. Connect the wires: Black to Black, White to White, Ground to Ground. Secure the connection with wire nuts. Attach the fixture body to the mounting plate using four fixture screws.
