

DESIGN - LED BACK-LIT FLAT PANEL comes with a durable commercial • grade housing resistant to rust and impact, anti-corrosion aluminum seamless rigid frame, anti-glare PC lens, and driver with circuit overload, short circuit, and low-voltage protection, making it both safe and reliable. It is designed to operate on 120-277V circuits.

DIMMING - Smooth 0-10V dimming capabilities ranging from 10% to 100% • with modern LED dimmers allow you to control the look and feel of your space.

COLOR AND POWER SELECTABLE - You can choose either a 3,000K warm white, 3,500K neutral white, 4,000K cool white or 5,000K daylight color temperature, and change the power with a simple switch.

2.4G WIRELESS CONTROL - Dimmable and CCT tunable via a wireless • handheld or wall-mounted remote, letting you choose either a 3,000K warm white, 3,500K neutral white, 4,000K cool white or 5,000K daylight color temperature.

MOTION SENSOR - The built-in microwave motion sensor will turn off • the fixture automatically when no motion is detected. The sensor can be adjusted using the handheld remote.

BATTERY BACK-UP - The built-in battery back-up provide 90 minutes of power in case of emergency.

**INSTALLATION** - This fixture has three different mounting options: • recessed, suspended, and surface.

APPLICATION - Perfect commercial or industrial solution for offices, • hospitals, schools, retail, workshops, and many other applications. It is also Damp Locations rated.

ADVANTAGES - With calculated lifespan up to 179,000 hours, these ь fixtures are made to last decades under normal operation! ASD provides a 5-year limited warranty along with UL and DLC Premium certifications to guarantee top quality products and safety!

HANDHELD REMOTE FOR COLOR CHANGING ASD-RC-2.4G-H sold separately:

	ON OFF	ON Turn ON OFF Turn OFF Handhe	eld remote controller cannot be used as a sw	itch, it should be u	used together with the switch.				
ON OFF	D	Pairing the light While holding the "ID" button, power on your p	Pairing the light While holding the "ID" button, power on your panels. Your panels should flash twice to indicate they are paired. You can pair several lights at once.						
COLOR(CCT) 5000K 4000K 3500K 3000K BRIGHTNESS 25% 50% 75% 100%	ID + <b>V</b>	Disconnect remote from panels While holding the down arrow and the ID butt indicate they are no longer paired.	While holding the down arrow and the ID button, turn on your panels, this will disconnect them from your remote. Panels will flash twice to						
	1         2           3         4	Group selecting buttons To assign panels to a group you must first pa the lights are off hold the # button and turn or may not occur until after 3 seconds of turning	Group selecting buttons To assign panels to a group you must first pair them with your remote. Once paired hold the # button you wish to assign to your panels. While the lights are off hold the # button and turn on your switch. Panels will turn on. Do not release the button until the panels flash one time. The flash may not occur until after 3 seconds of turning on the lights. If you release before the flash your groups will not be set up.						
	Save	Setting default brightness and CCT To save the desired settings as a default, turn the panel to desired color temp and brightness. Then hold the Save button on the remote until the panels turn off. This will save the settings for future use.							
GROUPING 1 2 ID 3 4 Save	ALL	All groups selected							
	5,000 K	4000K 4,000 K	<b>з500К</b> 3,500 К	3000К	3,000 K				
	25% 25 % brightness	50% 50% brightness	75% 75 % brightness	100%	100 % brightness				
ASD	Decrease brightness	Increase brightness	Decrease color temperature	$\mathbf{b}$	Increase color temperature				

After turned on, the light will automatically detect the 0-10 V dimmer to set brightness, it will get 100 % brightness if no dimming signal to input the light. •

If use 0-10 V dimmer to control, light brightness will convert to 0-10 V dimmer's current brightness setting.

If using remote controller to control, light brightness will only change from its current brightness rather than remote controller's current brightness setting

#### WALL-MOUNT REMOTE FOR COLOR CHANGING sold separately: ASD-RC-2.4G-W

0 ON Turn on OFF Turn off ON OFF wall-mount remotes: The wall-type remote controller cannot be used directly as a switch, it should be used together with the switch. Lights code matching combination keys Press the ON + OFF buttons simultaneously to keep the remote's indicator light always on. Turn on the light for 2 Seconds then release the combination keys to match the code. Matching code with many lights at the same ON + OFF ON time is available OFF Brightness adjustment ССТ Press the CCT button to change the color temperature to 3,000 K/3,500 K/4,000 K/5,000 K After shutting down it will save the current color temperature. • ССТ \_£(b Setting default brightness and CCT To save the desired settings as a default, first tune the panel to desired color temp and brightness. Then hold the ON button on the wall remote until the panels turn off. This will save your setting for future use. ON

Matching methods for the handheld and

NO	Grouping	Grouping Handheld remote	
1	1	1 + ID	On + CCT
2	2	2 + ID	On + CCT
3	3	3 + ID	On + CCT
4	4	4 + ID	On + CCT
5	All	All + ID	On + CCT

After 10 Seconds of each operation, it will enter the standby power saving mode. If you need to adjust again, press the ON button and wait for the indicator light to flash

For most up-to-date spec sheets please refer to asd-lighting.com

## **BUILT-IN MOTION SENSOR** INFORMATION

- With sufficient daylight, even when motion is detected, light remains OFF.
- With insufficient daylight, when motion is detected the light turns ON.
- After last detection, the light will be dimmed down to the stand-by dimming • level (10 %, 20 %, 30 % or 50 %) after holdtime.
- After the stand-by period, the light turns OFF.

### **DEFAULT SETTING:**

## **BUILT-IN BATTERY BACK-UP** INFORMATION

## INSTALLATION GUIDE

## IMPORTANT SAFETY INFORMATION:

Please read all the instructions below before installation.

- Make sure that the supply voltage corresponds to the rated product voltage. The product must be installed by a qualified electrician in accordance with the
- National Electrical Code and corresponding local codes. If the product is damaged, do not use it.

## 🛦 WARNING

#### RISK OF PERSONAL INJURY - READ and follow all WARNINGS and installation instructions. Keep or give to the owner for future reference.

**Risk of cuts:** Wear gloves to prevent cuts or abrasions when removing from carton, handling, installing, and maintaining this product.

Risk of electric shock: This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Risk of Fire: Minimum 194°F supply conductors. Consult a gualified electrician to ensure correct branch circuit conductor

ASD® assumes no responsibility for claims arising out of improper or careless Installation or handling of this product.

## ELECTRICAL SCHEMATIC DIAGRAM:

#### **BLP** multiple fixture connection

Model	Battery watts	Lumens in emergency mode	Battery capacity	Emergency mode	Charging time
ASD-BLP-22D25AC-EM-PRM	8W	1,158 lm	2,600 mA * 4	≥ 90 minutes	≥ 24 hours
ASD-BLP-24D40AC-EM-PRM	8W	1,158 lm	2,600 mA * 4	≥ 90 minutes	≥ 24 hours

Has a self-checking function

- AC Operation, indicator light will stay on •
- Emergency Operation, indicator light will flash slowly (light on for 2 seconds, light off for 2 seconds)

In a failure, indicator light will flash quickly (light on for 0.2 seconds, light off for 0.2 seconds)

> In order to test the Battery back-up, press test switch one time to switch to emergency mode. Press one more time to get back to AC mode

## STANDARD OPERATION DISPLAY STATUS:

Operating condition	Green LED
Charging	ON
Emergency mode	Flash slowly
Test failure	Flash quickly

#### BLP-EM with battery back-up

#### BLP-EM with battery back-up multiple fixture connection

Connect the battery plug

before wiring.

Linking limits: up to 20 panels can be linked together. Total power of LED Panels shall not exceed the wattage of dimmer

#### **BLP-MS** with motion sensor

#### BLP-MS with motion sensor multiple fixture connection

\* The regular voltage 120-277V fixtures can be alternatively powered without neutral by two-phase circuit with phase-to-phase voltage of 208V (L1-120V & L2-120V) WARNING: Phase-to-phase voltage should be less than 277V (160V per each phase) and more than 120V (70V per each phase)! Do not confuse Regular Voltage fixtures of 120-277V with High Voltage ones of 277-480V!

### ASD LIGHTING CORP

E-mail: orders@asd-lighting.com

Web site: www.asd-lighting.com

## RECESSED MOUNT:

1. Lift all mounting clips along the edges of the panel. Turn the mounting clip head. 2. Connect the wires into the junction box of the panel matching colors N, L and G using nuts.

3. Adjust into place. Ensure the clips are fastened to the ceiling's T-BAR/T-GRID.

## RECESSED SHEETROCK MOUNT

ASD-FDW-ELP14 ASD-FDW-ELP22 ASD-FDW-ELP24

### sold separately:

1. Following the picture below, slide part B into the inboard side of parts C and A as shown.

Place assembled frame into the ceiling opening and add steel wires for support as pictured below. After wiring fixture, carefully slide it through ceiling opening, rotate and drop fixture into place.

Note: For best results, attach supporting steel wires going into the ceiling to sides of frame after assembly. End rail can be used as intermediate rail for tandem row

## POWER AND COLOR TEMPERATURE SETTINGS:

## SURFACE MOUNT ASD-FELP14-L

ASD-FELP22-L ASD-FELP24-L sold separately:

1. Connect 3 pieces of the frame to the ceiling using four screws.

2. Connect the panel wires as shown in electrical schematic diagram and insert and the panel into frame.
 Attach the fourth piece and secure with screws. Power on to ensure installation

is complete.

\* Must remove earthquake hook before installing surface mount frame.

#### SUSPENDED MOUNT ASD-CHS4 ASD-CHS6 sold separately:

1. Insert the wall plugs (not included) into the ceiling and secure the suspension surface fixing to the ceiling.

2. Lock the suspension cable to the clip. Adjust the cable length to meet the height requirements. Attach the cable to the ceiling.

\* For 1x4 and 2x4 installation please use 2 pcs of Ceiling Hanging set.

## COLOR TEMPERATURE SETTINGS:

For most up-to-date spec sheets please refer to asd-lighting.com
